

## About Us

Our Bright Changes Clubhouse is a community-based program addressing the social and emotional needs of school aged children and youth.

We support and encourage youth to explore new and exciting opportunities by promoting an array of experiences and providing a safe environment during the after-school hours and during summer. Club Members receive case management, therapeutic services, age-appropriate life skills, homework support and exposure to different careers and hobbies through field trips and speakers.

## Club Members

We serve youth and emerging adults ages 9-21. Members must have a primary mental health diagnosis and meet the criteria for non-intensive services. If a higher level of care is needed, referrals will be provided.
